

Wenn alles zusammenkommt.

FSC – Finanzexperte, Softwarespezialist
und Consultant in Einem.

Graduate as a SimCorp Dimension Consultant

Master/Bachelor of Business Administration – Banking and Finance – Business Informatics

ABOUT US

As a management consultancy in the IT environment we have many years of experience with SimCorp Dimension (SCD) in the area banking, investment companies, insurance and securities trading. We assist our clients in establishing and operating the standard software SimCorp Dimension.

Thanks to our specialization and our status as a SimCorp Dimension Implementation Partner our customers are well-known fund companies, banks and insurance companies. Since our founding in 2004 our team has grown steadily, as has our total revenue. Our plan for the coming years is ambitious.

JOB DESCRIPTION

Are you looking for exciting activities surrounding trading, controlling and processing, financial innovation, fund accounting and compliance? Would you like excellent, medium-term development opportunities in consultancy for investment organizations?

Along the way, your first task is to support the SCD users in their daily work with the software. This involves operations, master data, interfaces, exports, reports, analysis of error and problems. You will closely coordinate your activities with our customers, international users, our IT operations colleagues and the software company in Copenhagen, which will support you at all times.

Furthermore, you will realize special customer requirements, gain a deep insight into the products of the financial sector and work in a modern IT architecture environment.

YOUR ACTIVITIES

- at the beginning of working with SCD you will work in a small team to provide second-level support and solve the individual software problems of SCD users
- analyzing independently the technical problems and / or operating problems and developing solutions within the agreed service levels. If necessary, you will access and modify the system configuration per remote in accordance with the customer's wants
- creating customized documentation of operational and support processes
- preparing installations and upgrades, and supporting the development department

Wenn alles zusammenkommt.

**FSC – Finanzexperte, Softwarespezialist
und Consultant in Einem.**

OUR REQUIREMENTS

- excellent communication skills, team orientation, initiative, willingness to work, service orientation, flexibility and open-mindedness
- affinity for finance and IT
- graduate (studies in economics or IT)
- proficient skills in German and English
- if possible knowledge in financial trading, dealing with standard software (e.g. SAP) and a traineeship in banking
- interest in working with the application SCD and becoming an expert in SCD

WHAT WE OFFER

- project tasks in a small team, where you will be able to push things forward within the complex IT-infrastructures of our customers
- multiple possibilities for skill enhancement and excellent career advancement opportunities in the consulting and project work for the banking and investment management industry
- a chance to specialize on the leading investment management software SimCorp Dimension
- a workplace in the heart of a German finance hub (Munich/Frankfurt/Düsseldorf)
- a young, managed through its founder, family-friendly consulting company with an open company culture
- regular office working times, only on certain occasions we do require some flexibility
- after the end of projects we offer you the possibility of home-office or part-time work

Starting with basic training in the software SCD at SimCorp in Copenhagen and on-the-job at our customers' locations, you will receive the SCD Certified Professional certification at the end of the basic training. In the medium term, you are free to specialize according to your interests; such as portfolio management, derivatives, fund accounting, reporting, performance assessment, application support. Later on, you will have projects in SCD and can use our extensive FSC training program.

CONTACT PERSON

We look forward to receiving your application, preferably by e-mail. Please send your complete application, indicating your earliest possible starting date and your salary expectations, to Mr. André Marx.
